**WORK PLAN APPROVAL SIMULPROBE GROUNDWATER PROFILING - BOEING REALTY CORPORATION, FORMER C-6 FACILITY, 19503 NORMANDIE AVENUE, LOS ANGELES (FILE NO. 95-036, SLIC NO. 410)**

Dear Mr. Mossman:

We have received the "Parcel C Simulprobe Groundwater Profiling Workplan" (Workplan) dated May 27, 2002, prepared by Halcy & Aldrich, which presents the rationale and procedures for collecting additional groundwater quality data to further delineate volatile organic compounds groundwater plume beneath the southwest portion of the site. During a meeting between Regional Board staff and Boeing on April 17, 2002, Boeing presented the rationale and procedures for the additional fieldwork and Regional Board staff approved the implementation of the field at that time and this letter documents that approval.

We have completed our review of the Workplan and approve its implementation. Please provide one copy of a report presenting the results of this additional investigation with the Site-Wide Supplemental Groundwater Characterization Report by **February 28, 2003**.

Please call me at (213) 576-7637 if you have any questions.

Sincerely,

John Geroch  
Associate Engineering Geologist  
Site Cleanup Unit I
